

## One of Our Earliest Pioneers Passes Away

Mrs. John Finnigan

A large gathering of people from town and country assembled in Union Church on Monday afternoon April 17th, to pay their last respects to the late Mrs. John Finnigan, one of our very oldest residents. She ceased to be in good health for some time and during the winter had suffered from an attack of dropsy. In the hope that the progress of the disease might be stayed she yielded to desire of her friends and went to the St. John Hospital on Sunday April 22nd. For a few days she appeared to respond to treatment. In improvement, however, was only temporary. A week ago symptoms developed which indicated the approaching end. Although everything possible was done for her, gradually sank, passing away about midnight on Friday, April 14th. Her husband, two sisters and a brother, Mr. J. H. Johnston, of Winnipeg, were at her bedside when she died.

The late Mrs. Finnigan was a native of Dumfries, Scotland, but at the age of eleven months, was brought by her parents to Canada. The family settled near Shakespeare, Ontario where she resided until grown up. To one of strong character and adventurous spirit with the blood of the pioneer in her veins the lure of the west became irresistible. Miss Francis M. Johnston was among the first passengers to reach Winnipeg in the year 1881. There she met and two years later, April 17th, 1883, married Mr. John Finnigan. For a honeymoon trip the young couple pushed further west resting for a short time at Gull Lake, Sask. In June 1884 they arrived at the siding which was afterward named Gleichen and have been identified with the life of the town or country ever since.

In the year 1903 they moved out to their ranch on the Red River, but returned to town a few years later and built their present residence in the west end of town.

Mrs. Finnigan always took a deep interest in the affairs of life, and by the early days was recognized as a strong and unique character. She took a prominent part in getting the first school erected in Gleichen and paid for it. She was elected chairman of the trustee board. A position which she held until she moved with her husband to the ranch, being the first, and perhaps, only woman to hold such a position in the North-West Territories.

Largely through her efforts a public library was established in these early years, an institution which unfortunately has ceased to exist.

Being a devoted Presbyterian she naturally took an active and practical interest in the student mission society. Several of them remember how at the end of the summer Mrs. Finnigan refused to present a board bill, saying, "Boy, you will need all your money when you return to college."

She boarded the railway men, the detachment of the R.N.W.M.P., and she prepared the food for the "guests of the cells."

The first house occupied by the Finnigan's in the town was located by the Canadian Bank of Commerce. When the property was sold to the bank they bought and built on the site of the present family residence, the first plastered house in Gleichen.

On Easter Sunday morning, April 16th, before the body was taken to the train for shipment to Gleichen, services, conducted by an old friend, the Rev. J. W. Morrow, and attended by many friends of other days, was held in Medicine Hat.

Here, on Monday afternoon, April 17th,

## No Thanks, Mayor Adams

Mayor Adams Would Dump Calgary Bad Boys and Girls on Gleichen

The Gleichen School of Agriculture is reported closed temporarily, but Gleichen has the written word of Hon. Geo. Hoadley, Minister of Agriculture, that before this is done everything will be thoroughly investigated "financially and otherwise". This investigation has not yet been thorough, and we refuse to believe the honorable gentleman will not live up to his written word.

Finance and attendance are the points involved. Gleichen will guarantee the attendance, and, we believe, can solve the financial difficulties when Mr. Hoadley thoroughly investigates.

In view of our school being closed Mayor Adams, of Calgary, got busy and wants to use our school for incorrigible children, and has asked Premier Greenfield to permit it.

This is adding insult to injury with a vengeance.

Gleichen started the movement for an agricultural college and has been working steadily for fourteen years, to that end. We are not to be fooled just yet.

At least there will be very strong objection to Calgary folks dumping all their bad boys or girls on this community. Of course, it is spoken of as "temporarily"—we all know what that means.

Mayor Adams may just as well know right now that Gleichen will stand for nothing of this kind, and that we hold a record for leading incorrigible creatures. If he sends any here he may expect them to be re-loaded on the train faster than he can ship.

## J. Andrew's Church

Damaged by Fire

## Memorial Bazaar

Realizes \$250.00

Saturday noon damage to the exterior of about \$500 was done to St. Andrew's Church, due to it being so turned on a damper on the inside of the furnace. Although the church refused to respond, something was done for nothing of this kind, and that we hold a record for leading incorrigible creatures. If he sends any here he may expect them to be re-loaded on the train faster than he can ship.

A short time ago this church was damaged by fire to the extent of about \$500, and it seems a new furnace is a very much needed. The present furnace having been donated by Canon Stocken many years ago.

On the sixtieth birthday and the thirty-ninth anniversary of her marriage, the funeral services were held in Union Church. Rev. Canon Stocken, who was welcomed to Gleichen by the deceased lady thirty-eight years ago and who was associated with pastor in the service, delivered a fitting address.

Mrs. Thos. Henderson, Harry Scott, J. H. Wilson, F. C. McKay, J. Walker and Frank Daw, old timers and old friends acted as pall bearers, and the most beautiful floral offerings, from friends in Medicine Hat and friends here, all of which paid their silent but eloquent tribute of affection and respect, was a wreath bearing the inscription: "A tribute of respect to a worthy citizen, from the Town Council, the School Board and the Women's Bazaar of Trade".

Blessed her husband, Mr. John Finnigan and a daughter by adoption, Mr. Madge, of Richdale, two sisters, Mr. W. M. Williamson and Mrs. E. Campbell, of Medicine Hat, and a brother, Mr. J. A. Johnston, of Winnipeg, arrived to mourn her loss. To these bereaved ones the whole community united in tendering its sincerest sympathy.

Two beds are better than one except in the matter of keeping a secret.

## Mrs. P. J. UMBRIE

It is with sincere regret that we record the death of Mrs. P. J. Umbrie at her residence in Banff. The sad event had been expected for some weeks past. The Rev. Canon Stocken, a friend of the family and representative of the Gleichen Masonic fraternity and the local order of the Eastern Star, took the last sad rites, and laid the remains of the departed lady to rest in Banff's beautiful cemetery, in the presence of a large number of friends. The bereaved husband and family have the heartfelt sympathy of the entire community.

## MRS. C. F. HERMAN

The death of Mrs. C. F. Herman at Basano Hospital on Tuesday night, April 11th, has brought much sorrow to Milo and district where she has resided for the past four years and besides her husband leaves three boys, aged respectively six, nine and eleven years to mourn her demise. Besides her father and mother, Mrs. Mrs. J. A. Asgaard, and brother Louis, all of whom are well-known throughout the country, also another brother and three sisters, residing in Long Beach, Calif., a sister in Conrad, Mont., and another sister in Osoyo, Wis.

Mrs. Herman a young woman of 34 years and highly esteemed by all who knew her, was taken ill about two months ago with the "flu", from which developed pleurisy and pneumonia, and although she appeared to be recovering, a relapse occurred on Tuesday afternoon and despite the best of care and attention passed away.

The death of her brother John Asgaard, in May, 1919, at Milo, will be still fresh in the memory of hundreds of friends.

The deceased had enjoyed a happy married life of twelve years and the deepest sympathy is expressed for Mr. Herman in his great loss and also for his three motherless boys.

Geo. W. Evans, of Gleichen had charge of the funeral arrangements, which took place at Basano on Monday afternoon at 1 o'clock. The services being conducted by Rev. Mr. Little of Basano in the Presbyterian church there.

Louise Asgaard arrived a few days previous to her sister's death from California.

The ladies of St. Victor's Church will hold a sale of Home Cooking and serve afternoon tea next Saturday afternoon, April 22nd, in the Palm Parlor. The sale will start at 3 o'clock and continue until 7 that evening. You should not miss this treat.

Sunday in Japan

Advantages Not Fully Understood by Most of People

Tokyo newspaper reports the Imperial recognition of Sunday as a national day of rest throughout Japan, as the result of the influence which Christianity is exercising now in a non-Christian nation.

The government has been for years officially committed in a partial recognition of the Sabbath. On that day imperial orders were closed, schools were a holiday, but banks did not close for business and many people resented their labor.

The advantages of Sunday are not understood by most of the Japanese people. Christian preachers are endeavoring to explain the advantages of the Sabbath to the people. On that day the Sabbath is not work but the refreshing of body, soul and spirit.

Country houses in Japan work long hours and on Sunday, while workers in cities usually keep open one or two days out of each month.

This class of people do not know what to do with Sunday. As a result, many picture theaters have sprung up with great rapidity and a result that many citizens in the empire. These do not understand Sunday and are now taking the way the nation know of using the God-given day.

OUT OF THE WORLD HAPPENINGS BRIEFLY TOLD

New York City is the home of nearly half of all the Jews in North America.

The population of Greater Winnipeg is placed at 283,521, an increase of 1,641 over 1921, according to the 1922 city directory.

It is believed that more fish are found off the Grand Banks of Newfoundland than in any other part of the world.

Provision is made in the Dominion estimates for an exhibition train to be sent to the Pacific coast. The train will consist of 100 cars and will be sent to the Pacific coast in 1923.

Notice of Oriental immigration from Canada is sought by a motion picture of which has been given in the House by Mr. McQuinn, Conservative, New Westminster.

Prohibition agents denied today that they had been in the vicinity of the Grand River, which has been reported to have been the scene of a large gathering of thousands of people gathered along the banks to watch the procession.

Chancellor Wirth told the German Reichstag that the German government had repudiated its commission for an additional tax levy of 600,000,000 marks, which had been voted by the German government in 1919.

The Canadian Government has received £1,171,700 from the British government for the purpose of the Canadian army of occupation, but no further repatriation payments have been made.

**Germany's War Losses**  
Approximately One in Seven Killed in Battle, Statistician Finds

Fourteen million were killed and 100 million wounded on the German side during every hour the world war was raging, according to an estimate arrived at by General von Altrick, statistician. This estimate was made from a study of official records.

Germany's losses totaled in dead, 13,825,215 and in wounded 124,477,720 in the number of 25,000,000 men under arms during the course of the war, and in the number of men in seven war killed in battle.

The officer's corps lost 5,500 men killed and 50,000 wounded, German soldiers and civilian losses together, caused directly or indirectly by the war, are estimated by General von Altrick, at 12,000,000.

**The Settlers Canada Wants**  
The figures of the recent census indicate the fairly well recognized fact that one of Canada's needs is a larger population. With an area larger than that of the United States, with millions of the best agricultural lands in the world, and undeveloped natural resources of wealth beyond all human imagination, this Dominion has a population comparable to that of little Borneo.

However, it has been made to the expanding Canadian problem on more than one occasion in this column, and it is not necessary to repeat facts and figures, nor dwell at any great length on all the motives and reasons which a substantial increase in Canada's population would bring to every man, woman and child now in the country. It may be well to continue saying the general degree that it is a definite and pressing national problem.

Recently two important and well defined sections of the Western Canada on this subject, and in both instances common sense views were expressed and sound advice given. One such address was delivered by Mr. Clifford Wilson, known as the "Farmers' Friend," and the other by Mr. J. H. McQuinn, who is now in Canada qualified to speak on the subject of population, and the relation of immigration thereto, in the British Empire. He has had much experience in handling the problem, and while mistakes may have been made under his administration, he certainly succeeded in obtaining results to a greater degree than any other before him.

Mr. Clifford would be hard to dispute with many of the points which he made, and in his opinion, he is not far from the mark. In his opinion, the one way to accomplish the desired result, and that is to get real estate men to go to the United States and bring back settlers to the farm, where they can make good. He is absolutely and unambiguously opposed to bringing in immigrants by the million without reference to their ability to "make good" on the land.

The second address in which reference is made was by Professor C. E. Jones, of Toronto University, on the subject "Principles of a Sound Immigration Policy." Also Mr. Clifford Wilson, already a point of view, and giving settlers of the agricultural lands. At the same time, the fact that good settlers are not being brought to the farm, where they can make good, is a fact that is a fact.

**Beeskeeping Profitable**

production of honey on Commercial Scale in the West

A noticeable feature of Western Canada agriculture in recent years has been the progress recorded in the adoption of beeskeeping, and the production of honey as a commercial enterprise. The western provinces, particularly the irrigated sections, are actually adapted to the production of alfalfa and other clovers, and this has resulted in a profitable business.

GLEICHEN, ALTA., WEDNESDAY, APRIL 19, 1922

### Forest Patrol May be Discontinued.

It is rumored that the Dominion Government contemplates the curtailing or discontinuance of the forest patrol in South Alberta. The forests of South Alberta were constituted a reserve because their preservation was considered vital to our rainfall and our irrigation plans. Here is something that the Municipal Councils, U.F.A. and Boards of Trade throughout all Southern Alberta should get together on and use every influence to maintain as it affects every interest and every person. Already High River and other points have taken action and are petitioning the government to continue the patrol. The people of the Gleichen district should not be slow in aiding them in this all-important matter.

The forest patrol in Southern Alberta is of greater importance than the patrol of most forest areas. The object is not principally the preservation of timber, but the preservation of our agricultural industry.

First, Because the loss of these forests would make the climate drier.

Second, Because the loss of these forests would greatly reduce the waters available for irrigation.

Our climate until recent dry years was one ideal for grain crops. We had plenty of rain in May and June, dry weather in August, September and October. Scientists tell us rain is produced by the chilling of air compelling it to give up the moisture it could hold at higher temperature.

Our spring rains, which we get them, are produced by the condensation of the moisture in the air blown against the snows of the mountains by east and north winds. When these winds prevail the chilled area spreads farther east and the rains covers a greater area. The snow preserved from rapid melting by the forests is our condenser. Remove the forests and the snows go out in April; remove the condenser and our rains cease.

### PROVINCIAL NEWS BULLETIN

(Issued by Publicity Commissioner Government Buildings, Edmonton.)

A number of new appointments of importance to the farming and irrigation interests of Alberta have just been made by George Hoadley, Minister of Agriculture. From now on all agricultural agents will be under the direct control of S. G. Carlyle, Provincial Livestock Commissioner.

W. J. Stevens has been appointed commissioner of field crops and will occupy the position formerly held by the superintendent of the seed and weed branch of the Department of Agriculture. Mr. Stevens was for a number of years principal of the Claresholm Agricultural School, and has made a special study of marketing and the growth of seeds.

C. D. McMillan, at present in charge of the demonstration farm at Stony Plain, will act as agricultural agent for that part of the country, with headquarters at Stony Plain.

G. W. Fletcher, in charge of the farm at Athabasca Landing, will also act as agricultural agent for that part of the country, with headquarters at the farm.

H. W. Scott, who has been the agricultural agent of the Sedgewick country for a number of years, will continue to act in that capacity at the Sedgewick demonstration farm.

R. Austin, who has been in charge of the demonstration farm connected with the demonstration farm connected with the Agricultural School at Gleichen and lecturing on livestock at the institution, will now also act as agricultural agent of that district.

M. L. Freng, who has been in charge of the branch of the agricultural department at Lethbridge and has made a specialty of irrigation will continue to act as agricultural agent, stationed at Lethbridge.

With the purpose of giving the highest class of service available, states Mr. Hoadley, Prof. Murray, lately in charge of the Noble Foundation, and recognized as one of the best agricultural experts in Canada, has been engaged to act as agricultural agent in the drought area, with headquarters in Medicine Hat.

The Agricultural Schools at Gleichen and Youngstown, states the minister, will be closed for the time being.

Mr. Freng is noted as an irrigation expert, and working in conjunction with Prof. Murray, these two men are expected to render splendid service to the dry country of this Province.

Premier Greenfield is planning to put into effect a scheme whereby the members of the government side in the Legislature will be able to study the workings of the various departments of the government in a more intensive way. These members have left with Premier Greenfield the task of grouping them into different groups, each group to take up the study of one department, and to hold meetings with the minister in charge of that department. This suggestion was made by the members themselves.

You know the old story of Mahomet and the Mountain—when the Mountain wouldn't come to him he, like a sensible man, grabbed his Panama off the hall rack and went to the Mountain—he wanted it bad enough to go after it.

That is precisely the situation today—the Mountain BUSINESS—will not come to you—you will have to go after it hard. You have one big advantage over the Prophet—he had to take the going as he found it—you can save the way with advertising.

## MANUFACTURERS TO GATHER

The national officers of the Canadian Manufacturers Association, and a glimpse of the Alexander Hotel, St. Andrews, N.B., where the Association will in June next, hold its annual convention.

On June 20 next a parliament of St. John, N.B. About three years ago the Association was organized into five territorial divisions. Manitoba, Quebec, Ontario, Prairie and British Columbia, and the annual meetings are held in rotation in these divisions. In 1920 the convention was held at the Hotel Vancouver, Vancouver, last year at the Chateau Frontenac, Quebec, and this year it goes to the Algonquin Hotel, St. Andrews, famous as an important centre for all land and water summer sports.

Some 300 members of the association will be present and the subject of Canada's export trade is being discussed at this time of supreme importance with more than usual attention in the various reports presented. Prospects for an extension of trade with the West Indies will also be considered as a result of the visit of a large number of members during the past winter.

St. Andrews has an interesting history dating back to the seventeenth century. It saw the early struggles between the French and English and it was later a peaceful border town enjoying all the amenities of a border town in war times. Its streets were laid out in the days of early colonial days still stand. The little town has important fishing industries.

## DISTRICT AND LOCAL

Mr. John Finigan and relatives wish to thank the many friends for their kindness and sympathy shown in so many ways on the occasion of Mrs. Finigan's death.

The ladies of Union Church will hold their Annual Spring Sale of House Dresses, Aprons, Home-Cooking, Etc., on Saturday afternoon, May 10th, at 2 o'clock, in the G.W.V.A. Hall.

Farmers take notice—Do not bring your horse expecting to pay to transport on shipping days. Call us up for information. Pioneer Market, Chris. Hartsh, Prop.

The infant daughter of Mr. and Mrs. A. H. Tieda, died in the hospital on Monday morning, April 17th. Interment took place in Gleichen cemetery on Tuesday afternoon. The pastor of Union Church had charge of the burial service. We are glad to know that the mother is making a good recovery.

Mrs. Thomas Saunders and family left on Monday for Windsor, Ontario. Our office has not been friendly to Mrs. Saunders. While sorry to leave she does not expect to return. Although in town less than two years Mrs. Saunders made many friends. She will be missed especially among Union Church folks, where she was actively identified with the Sunday school and Ladies Circle.

Owing to the many other entertainments the Gleichen Women's Institute have given no public entertainments throughout the past winter, but have accomplished a lot of good work for the town and district. Now, however, they find themselves short of funds to "carry on" their good work, and for that reason will give a whist drive in the G.W.V.A. hall on Thursday, April 27th. They hope a good crowd will be in attendance and will endeavor to make it one of the most pleasant drives they have ever given.

Mr. E. L. Cope, of Medicine Hat, Grand Master of the I. O. O. F. for the province of Alberta, called on the local lodge an official visit last Thursday evening, April 14th. The fine address and wise counsel of the Grand Master were much appreciated. The observation by the brethren here of principles, he said, are essential for the success of all. I. O. O. F. lodge. First: Watch your finances, be as generous as you can, but keep your expenses within your income. Second: cherish and develop the spirit of fraternity. These principles are of universal application therefore we are glad to pass them along.

A guaranteed connection between train and steamship bound for Europe has been announced this week by Canadian Pacific Railway officials at Montreal. Under the new arrangement this connection of connection with steamships (except Montreal) will be made by train. The train leaving Montreal for Quebec will be delayed in arriving at Montreal the steamship will be held two days if by doing so the passengers can embark at that point. If the delay is longer the steamship will proceed to Quebec and there will await the delay passengers. Transportation will be arranged from Montreal to Quebec for passengers booked to sail from Montreal. Company officials announced further that when a passenger boards a train on the C. P. R. that is due to connect with the company's steamship at Montreal or Quebec he is stopping on the gang plank.

## ARROWOOD NEWS

Miss Francis Lehman was operated on for appendicitis last Thursday in Holy Cross hospital at Calgary.

Mr. and Mrs. George Farquharson and baby from B.C. are visiting friends and relatives in Arrowood.

The many friends of Mrs. V. E. Vail are glad to see her in our midst after five weeks in the hospital.

Miss Mary Falar, who has been attending Normal in Calgary since last autumn, returned home Friday. The Ladies Aid will meet with Mrs. L. H. Irwin this week.

In time of peace it takes little to start a quarrel.

## Will Help Russia's Starving Children

The special committee appointed in response to an appeal made by the Interchurch committee for the "Save the Children Fund" and also the appeal of the Armenian Relief Fund, decided that such a call could be met only by getting into personal touch with every person associated with Union Church. A canvas is being made of the town and letters have been forwarded to the clergy. The committee confident that even in these trying times, people will do their utmost to help meet the tragic situation through which millions of innocent children are facing death from starvation.

Many responses be made in the name of the "Save the Children Fund" to the extent of the least of these my brethren you did it unto me."

## COMING EVENTS

Every Saturday Night—Motion Pictures at Gleichen Opera House. Friday, April 23—Social dance by the Young Men of Gleichen. Calgary music. Everybody invited.

April 22—St. Victor's Home Cooking Sale, at Palm Parlors.

April 27—Women's Institute Whist Drive, in G.W.V.A. Hall.

May 6—Aprons, dresses and home cooking sale in G.W.V.A. Hall.

Every Monday—G. W. V. A. Whist Drive. All are welcome.

Every Thursday I. O. O. F. meet in the Masonic Hall, Gleichen.

First Friday of each month regular town council meeting.

Last Thursday of each month the Women's Institute meet.

## NOTICE
